ARTISAN CEILING TILES

Featured Project: Office Interior with New Tile for 9/16" Grid

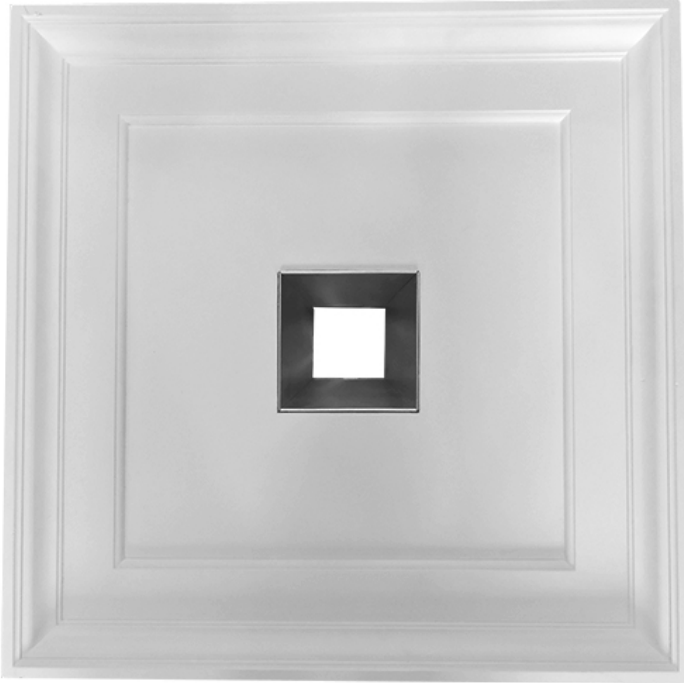

Chosen to compliment a modern interpretation of the Arts and Crafts style interior, the [Step Up 1.2.3 for 9/16" Grid, TL-0091](#) was used throughout this exquisite office building. Designed for the more refined 9/16" commercial grid, this clean geometric tegular tile offers a bold contemporary look and adds dimension to the ceiling plane.

Featured Ceiling Tile: Platforms Ceiling Tile (TL-0070)

Above View [Platforms Ceiling Tiles, TL-0070](#), offer many ceiling pattern options depending on the orientation of the tiles. For extra dimension, one of the planes was painted an accent color at TCU's Amon G. Carter Stadium.

Custom Solution

Above View married a trimless light fixture with our ceiling tile. In response to a customer's love for both our [Executive Coffered Ceiling Tile, TL- 0016](#) and a square LED trimless recessed light fixture, our team quickly developed a workable solution. This elegant adaptation is just one example of Above View's commitment to innovation and responsive customer service.

Upcoming Trade Show

Above View will be exhibiting at [HD Expo](#) at Mandalay Bay, Las Vegas, this spring! Visit us at booth# 3969, May 3 - 5, 2017, to see our artisan ceiling tiles up close!
