GRG with Wood Look

Above View's molded GRG tiles beautifully replicate almost any material or texture. The Boardwalk Series, for example, has an authentic white oak woodgrain texture that is transposed onto the surface of the tile, conveying natural wood.

Finish Options

Choose from a variety of Above View's [Finish Options](#) or specify a custom single paint color or two-color faux finish to accentuate the grain.

Shown left, Above View's Standard White painted finish offers a bright, clean option. Subtle and light, Sticks and Stones on [Boardwalk Diagonal](#) (center) highlights the woodgrain texture and brightens any space. An earthy Driftwood two-tone faux finish applied to [Boardwalk Linear Ceiling Tile](#) was specified at the Beach Company HQ.

Play with Pattern

The series has endless pattern possibilities depending on combinations of the four tiles and orientations in the grid. View the [Boardwalk Layout Tool](#) for inspiration.
