[New Looks from Above View Artisan Plaster Ceiling Tiles](#)

The view offered by Above View Artisan Plaster Ceiling Tiles is visually interesting and texturally appealing, with over 80 unique designs.

The versatility is reflected in several new styles, as diverse as the intricate and historic Gothic Tegular tile (above) displayed on the wall of a foyer hallway in Palm Springs; and the very contemporary Modulated Cube tile on a modern kitchen in a San Francisco loft (below).

Other new styles offered by Above View include the Art Deco Coffe tile, giving the walls in this private residence a geometric aesthetic that also casts intriguing shadows with changing light.

Lastly, Greek Key A and Greek Key B ceiling tiles offer a throwback appeal that enlivens the environs at the Caesars Horseshoe Casino in Elizabeth, Indiana.

The above are just a sampling of Above View's expansive inventory and dynamic aesthetic. Find out more at [Above View Ceiling Tiles](#).
