ARTISAN CEILING TILES

Featured Project: US Bank Stadium

ABOVE VIEW Ceiling Tiles top the swanky interiors of the Valhalla and Norseman Suites and Corridors at the US Bank Stadium. Home of the Minnesota Vikings, the stadium officially opened to the public on July 23rd. HKS Dallas specified two tile patterns for the project, the [Contemporary Coffe Ceiling Tile \(TL-0013\)](#) and [Wedge Ceiling Tile \(TL-0060\)](#). Enhanced with LED lighting, Above View's ceiling tiles provide a custom look and add dimension to the ceiling plane in these rich interiors.

Woodgrain Ceiling Tiles

The woodgrain is molded into the tile patterns of our 4 woodgrain offerings, rather than merely applied surface striations. Choose Dark Cherry or Honey Pecan for a natural wood look or create drama with our Coast or Vintage Red finish. Originally developed for The American Club in Kohler, WI, our woodgrain tiles are a popular ceiling solution. View our [Woodgrain Ceiling Tiles](#).

Four Fresh Finishes

Introducing four new decorative finish options for our Woodgrain Tiles. Clockwise from top left: Beechwood, Coast, Driftwood, and Vintage Red for a total of 7 standard finishes.
